DDR Devices 65

Description 35

Desktop Integration 29

- Device Configuration File Syntax 62
- DEVICECLASS 51
- Devices as Configuration Parameters 46
- DEVICETYPE 52, 63, 64, 65, 66, 67, 68
- Differences in Jaleo Operation Imposed by Raw Devices 53
- Disk Device 67
- Disk Space Partitioning Recommendations for Jaleo Composite 13
- Disk Space Partitioning Recommendations for Jaleo PLUS 14
- DiskCache.dev 64

## **E**

- Editing Configuration Files 39
- Entering Licenses 27
- Exception for Raw.dev 62
- EXPIRATIONWARNING 48

## **F**

- First Instance Frame
  - Label “f” 72
- First Source Frame
  - Label “s” 72
- FORMAT 66
- FRAMESSEG 48
- Further Disk Space Considerations 10

## **H**

- Hardware Configuration 8
- Hidden Files 41
- HOSTNAME 66

## **I**

- IMAGESIZEX / IMAGESIZEY 48, 66, 67
- INPOINT 52
- INPUTFORMAT / OUTPUTFORMAT 67
- Installation Strategies 18
- Installation Tape Drives 18
- Instance Data 71
- INTERPOLATION 48
- Introduction To Jaleo Software Configuration 39

## **J**

- Jaleo Data 11
- Jaleo Installation Concepts 17
- Jaleo Work Directory 32
- JALEO-ENV (/etc/devices) 33
- JALEO-ENV Directory 32
- JALEO-ENV(/etc) 33
- JALEO-ENV(/extern) 34
- JALEO-ENV(/utils) 34

## **L**

- Last Instance Frame
  - Label “l” 72
- Last Source Frame
  - Label “e” 72
- License Files 31
- License Management 20
- License Server Files 30
- Licensing Configuration Options to Resolve Conflicts 28
- Licensing Jaleo 26
- Live Video Configuration Files 51
- Live Video Configuration Options 51
- Log file 31
- LOWRESRATIO 48

## **M**

- Machine Preparation 8
- Material Storage 69
- MAXMEM 49
- MESSAGE 64
- More Information on Licensing 29
- Movie Device 67
- Multiple Controllers on Indigo2 Systems 61

## **N**

- Name
  - Label “n” 72
- Network Drives 14
- No Automatic Project Creation 17
- nterlaced Flag
  - Label “i” 73
- NTSCFIELDS 49
- NUMLEADZEROS 49

## **O**

- Obtaining System Hardware Configuration Information 8
- On Partition Concepts 9
- Operating System Configuration 15
- Options to makeEnv 37
- OUTPUTFORMAT 64, 68

## **P**

- PAINT\_TMP\_DIR 49
- PARALLEL 50
- PATH 64, 65, 67, 68
- Performance Balancing with LOWRESRATIO 69
- PORT 66
- Possible Raw Device Configurations 55
- Post-Installation Configuration 24
- Preparing a New Account 36
- Preparing the Logical Volume for Use 60
- Preview Image Storage and Memory Requirements 12
- Program Search Path 29
- Project Directory Setup 43
- Project Structure 42
- Property Section
  - Label “p” 72

## **R**

- Raw Devices Versus xfs 14
- Raw.dev 65
- REALITY 50
- Reel Position
  - Label “X” and “Y” 72
- Relocating Jaleo or License Files 28
- Remote Tape Drives 20
- REMOTEHOST 50
- Removal of License Server Files 31
- Render Device 68
- RENDERPARTIAL 50
- Resolving License Manager Access Conflicts 28
- Resolving Port Conflicts 28
- Reusing a Disk that has a File System as Raw Partition 58
- Running (addLicense) on a Separate License Server 27

## **S**

- Separate License Server Installation 25
- Setting Up Logical Volumes With RAID Arrays 60
- Single Drive Raw Device Configuration 55

- Single Local Tape Drives 19
- SIZE 52, 65, 66
- Software Installation 17
- Source Data Section
  - Label “d” 72
- Source Device Name
  - Label “d” 73
- Source Location Sections Label “L” and “H” 73
- Source Name
  - Label “n” 73
- Source Path
  - Label “p” 73
- Swap Space 10
- Systems with Multiple Tape Drives 19

## **T**

- TABLET\_MAX\_PRESS 49
- TIMESAVE 50
- Toplevel Section
  - Label “C” 71

## **U**

- Understanding Device Path Names 54
- Upgrades from Older Versions 17
- USER 66
- Using a Partition on a Non-Dedicated Disk as Raw Device 57
- Using a Shell 40
- Using Multiple Accounts 35
- Using Old Projects 17
- Using Script Installation 21
- Using Semi-Manual Installation 22
- Using the Graphical Desktop 39
- Using the Logical Volume 61

## **V**

- Valid Options for all Jaleo Systems 47
- Valid Options for Jaleo PLUS 50

## **W**

- Window Icons 29
