

Jaleo 2.6 Release Notes

Table of Contents

1.	Introduction	4
2.	Cosmo Compress / Galileo Users.....	4
3.	Updating from Jaleo 2.1	5
4.	General Advice.....	5
5.	Requirements.....	5
	Important Note to Clients Updating to R10K Impact Machines:	5
6.	Raw Mode Compatibility	6
	Important Note to Beta Users:	7
7.	Installation and License.....	7
	CDROM Installation.....	7
	License.....	7
8.	Configuration	8
8.1	JALEO-ENC/.jaleorc:	8
8.2	JALEO-ENV/etc/devices/RtVideo.cfg.....	8
8.3	Vlan.cfg	9
9.	New Features.....	9
9.1	Internals	9
9.2	Online Documentation.....	9
9.3	Reel Changes	9
9.3.1	Effect Creation.....	9
9.3.2	Edit Menu	10
9.3.3	Select Menu	10
9.3.4	Rendering.....	10
9.3.5	Trim Monitor	10
9.3.6	Flipbook and Gallery	10
9.3.7	EDL Export supports Audio	10
9.3.8	Audio Channels can be flipped / Dual Mono support	11
9.3.9	Render Monitor.....	11
9.3.10	High Res Support.....	11
9.3.11	Hardware Support for Rendering.....	11
	IMPORTANT NOTE:	12
	IMPORTANT NOTE:	12
9.3.12	Monitor	12
9.3.13	PlugIn Behaviour	12
9.3.14	PlugIns with Interface.....	12
9.3.15	Export Filters	12
9.3.16	Autosave	13
9.4	RtVideo.....	13
9.5	RotoPaint	13
9.6	Warping and Morphing	14
9.7	Third-Party PlugIns	14
9.8	New or Improved Effects	14
	Our own list of improved effects include the following:.....	14
	New Effects are:	15
10.	Unsupported Functionality	16
10.1	Templates	16

10.2	PAL - 16:9 Aspect Ratio Correction	17
10.3	Oversized Images in 3D DVE	17
11.	Known Problems and Bugs	18
11.1	Reel	18
	Insert does not work with partially overlapping clips (PR-# 70).....	18
	Edit>Move>Position with invalid input behaves inconsistently (PR-#73)	18
	Monitor cursors sometimes vanish on reel open (PR-# 83)	18
	Short monitor loops do not always playback in real time (PR-#360).....	18
	If clip creation by drag&drop fails, no error message is given (PR-#413).....	18
	New audio parameter for flipping does not appear on scpls or environments from older versions	18
	Edit>Move>Active may produce undesired results if no active monitor is present	18
	Render Monitor shows black when copying images	19
11.2	Effects	19
	Reel modified state is not set after time editor change (PR-# 12/170)	19
	DVE 3D may create rendering errors with two or more intersecting image channels with key (PR-#364)	19
	Hardware rendering needs a free screen area for rendering	19
	Morph does not update monitor windows on change	19
	Morph LowRes Render with 8 by 8 grid shows artifact sometimes (PR-#530)..	19
11.3	RotoPaint	20
	Reduce sometimes creates wrong end point tangents (PR-# 60).....	20
	Closing a window that obscures RotoPaint can cause shape creation (PR-#292)	20
11.4	RtVideo	20
	Filename drag in ClipToVideo mode	20
	Changing desk or iconifying RtVideo while creating preview images	20
	Audio input is still recorded if Audio Panel is set to zero (PR-#330)	20
	In FreeRun mode, RtVideo does not capture sound the first time (PR-#338)..	20
	In FreeRun mode, RtVideo does not warn against overwrites (PR-#340)	20
11.5	IO Module	21
	Render with Alpha Channel does not work (PR-#254)	21
	Memory Leak with PICT images (PR-#528).....	21
	JPEG Movies created with IO can not be read into Jaleo (PR-#532).....	21
