

mokey V3 | start here

licence information

Before you begin the installation procedure you should obtain a valid licence. To obtain a licence you need to register your product at <http://www.imagineersystems.com>

Note You need to register this product to obtain a licence file before the software can be used.

If a hardware key was supplied

You will need to know the ID of the hardware key supplied with the software. The ID is printed on the hardware key and looks like this:

FLEXID=6-A239473D

Note 'FLEXID=' is part of the ID and must be entered when registering the product.

Alternatively, the hardware key ID is obtained by typing 'lmhostid -flexid' in a shell. If 'lmhostid' is not installed on your workstation, please download and install 'lmutil' from Globetrotter¹ and type 'lmutil lmhostid -flexid' in a shell.

If a hardware key was not supplied

You will need to know the FLEXIm host ID of your workstation. If 'lmhostid' is not installed on your workstation, please download and install 'lmutil' from Globetrotter¹ and type 'lmutil lmhostid' in a shell.

The FLEXIm host ID for an IRIX workstation will be 6 or 8 mixed alpha-numeric characters, eg, 6909acd9 or 4b002324.

The FLEXIm host ID for a Windows, Linux or Mac workstation will be 12 mixed alpha-numeric characters, eg, 00B0A9DF9A32.

¹ <http://www.globetrotter.com/flexlm/lmgdreg.shtml>

system requirements

The following are the minimum recommended system requirements.

| | |
|-------------------|--|
| Operating system: | Windows NT/2000/XP Linux Mac OS X IRIX 6.5.10 or later |
| Processor: | 500MHz Intel Pentium III 400MHz G4 300 MHz MIPS IV or equivalent |
| Disk: | 100MB |
| Memory: | 256MB |
| Graphics card: | Must support OpenGL |
| Monitor: | Minimum resolution 1024x768 pixels |

For working with high resolution images, it is recommended that a system with at least dual 1GHz Pentium III processors or equivalent and at least 1GB RAM be used.

Note You will need an Avid Technology product that supports AVX v1.5 to run the AVX plug-in.

Note You will need a Discreet system inferno* v4, fire* v4, smoke* v4, flint* v7 or flame* v7 to run the spark* plug-in.

installation

The following steps should be followed to install the software.

Windows

Note You will need Administrator privileges to install the software on Windows NT, 2000 and XP.

1. Uninstall any previous installation of the software.
2. If a hardware key was supplied with the software, turn off your computer and connect the hardware key to the parallel port of your PC. Turn the computer on.
3. Insert the CD-ROM in your CD-ROM drive.
4. If the installation does not start automatically within 10 seconds, run the 'setup.exe' program on the CD-ROM.
5. If the installation program detects that an Avid product is installed on the system it will also install the AVX Plug-In in the AVX Plug-In directory.
6. After successful installation, copy the licence file ('license.dat') you obtained when registering the product into the directory in which the application was installed. The default installation directory is 'c:\Program Files\Imagineer Systems Ltd\mokey V3\'.
7. The software is now installed on your computer. The tutorial clips, if installed, are located in the 'Tutorials' directory in the installation directory.

Note Contact your graphics card manufacturer to obtain the latest driver for your graphics card to ensure best possible performance.

IRIX

Note You will need root privileges to install the software.

1. Insert the CD-ROM into the CD-ROM drive.
2. Run swmgr from a UNIX shell.
3. Choose File | Open Distribution.
4. Select '/CDROM/Irix' and click Open.
5. Click Start to start the installation.
6. After successful installation, copy the license file 'license.dat' you obtained when registering the software to '/usr/ISL/MokeyV3/license.dat.'

Note If you are running another application, such as Inferno or Flame, at the same time as Mokey and you experience rendering problems then try to disable the use of textures in Mokey. This is done in the Preferences dialog, which is available via the File menu.

Linux

Please follow the instructions in the 'Linux/readme' file on the CD-ROM.

Mac OS X

Please follow the instructions in the 'Mac/readme' file on the CD-ROM.
